Custom Colors Available  
upon request

Defend-X<sup>®</sup> can be pigmented in  
a variety of colors to match your  
individual applications.

## THE FIRST LINE OF DEFENSE

**Defend-X<sup>®</sup> Industrial Coatings** are the first line of defense in the protection of facilities, equipment and vehicles from impact, abrasion, corrosion, chemical attack, blast mitigation<sup>1</sup> and seismic failure.

DefensTech International, Inc., manufacturer of the **Defend-X<sup>®</sup> Industrial Coatings**, offers a product line of versatile high performance, proprietary formulated polymer products that can be utilized in a wide range of applications across multiple industries.

The outstanding physical, chemical and environmental properties of **Defend-X<sup>®</sup>** make it the natural choice of professionals looking for the best products on the market.

### Applications

#### **Petroleum, Oil and Gas Sectors**

Linings for thermal, rehabilitation and blast protection of tank farms, pipelines, secondary containment, tank roofs, non-skid<sup>2</sup> and corrosion control of floors, walkways, helicopter pads, workshops, control rooms, etc.

#### **Transportation, Civil and Military**

Linings for blast, ballistic mitigation, non-skid<sup>2</sup> and corrosion control of all types of transport trucks, helicopters, buses, trains, boats, ships, freighters, shipping containers, law enforcement vehicles, fire and ambulance vehicles, etc.

#### **Construction, Civil and Military**

Protective linings for blast, ballistic, rehab, hazardous building material encapsulation and corrosion control of Sensitive Governmental and Civilian Buildings including Embassies, Military Facilities, banks, safe rooms, mechanical rooms, sewage treatment tanks and pipes, grain silos, food treatment plants, floors, etc.

<sup>1</sup> **Defend-X<sup>®</sup>** Blast Mitigation Brochure and blast test data available upon request

<sup>2</sup> **Defend-X<sup>®</sup>** Non-Skid Coatings meet or exceed ASTM C1028-96 & D2047-04

# THE ULTIMATE PROTECTION

**Defend-X® Industrial Coatings** are designed and tested under the most rigorous conditions to protect assets from impact, abrasion, corrosion, and chemical attack.

**Defend-X® Industrial Coatings** can be applied with excellent adhesion to concrete, wood, steel, fiberglass and a variety of plastics. Our products can be installed or custom spray-cast to any desired shape and thickness from 1/8 inch to several inches thick.

*Before: Silo interior surface covered in rust & corrosion*

*Surface Preparation: sandblast & primer*

*Application of Defend-X® by certified technician*

*After: Completed application silo surface restored*

**Defend-X®** high performance polymer products provide protection that is stronger than steel for buildings, equipment and vehicles. **Defend-X®** will protect your assets from wear and tear, abuse and the elements. **Defend-X®** is tack-free within 10 seconds of installation, saving you money by reducing the amount of downtime required for installation. **Defend-X®** high performance polymer products have no volatile organic compounds (VOC) or Chlorofluorocarbons (CFC's) with emissions below the National Institute for Occupational Safety and Health's standards. If you have additional questions or wish to request technical data or product MSDS, contact our Industrial Coatings Specialist at **(800) 938-8838** or [gpilon@defenstech.com](mailto:gpilon@defenstech.com).

## **Defend-X® Self Contained Mobile Application Rigs**

*Trailer Interior*

**Defend-X®** Self Contained Mobile Application Rigs, available only through DefensTech International Inc., are turnkey systems with everything you need to be job-site ready. All tools and equipment are organized and easily accessible, making even tough jobs easier. Our team of highly skilled application professionals at DefensTech will train you and your staff in the patented **Defend-X®** Blast Mitigation application process.
